WORLD RADIOGRAPHY DAY  
CELEBRATION

2011

Dear Colleagues,

World Radiography Day marks the anniversary of the historical discovery of X-rays . Today, the World Radiography Day is celebrated all over the world by the Radiographic community as an iconic day to make realize the value of Radiography and related technologies to public, other health professionals and indeed, ourselves. The purpose of this day is to raise awareness of radiographic imaging and therapy, which play a crucial role in the diagnosis and the treatment. And, finally to ensure the radiation safety and the quality of patient care.

As you aware, the programmes organized by ISRT in the last five years were a grand success in all its meaning. We celebrated World Radiography Day with various programmes like Continuing Medical Education Programmes (CME), Exhibition for Public and with Radiation awareness Survey.

In this year ISRT set our hands with Dept. of Radiotherapy and Radio diagnosis of Govt. General Hospital Ernakulam, India's First Largest Govt. Hospital and Kerala's First Government Hospital to get NABH Accreditation to celebrate the WRD -2011 curtain raise events. The programme comprises an exhibition, on 8<sup>th</sup> November, Quiz competition and CME on 19<sup>th</sup> & 20<sup>th</sup> November. We hope that you will consider putting aside these days in your diary in November for this purpose.
